

User Story: Dice Generator

As a user, I want to be able to use different dice with different number of faces (D6 or D9).

Storyboard

1. User lands on the website.

Dice Generator

6 sides

9 sides

2. User clicks on the "Roll" button next to the desired dice (6 sides or 9 sides).

Dice Generator

6 sides

Roll

9 sides

Roll

6

3. After user presses the "Roll" button, the result will be shown with number and dice.
